FIGHT BACK FOR BRITAIN!

15p

ISSUE 77

FIGHT BACK

"MONSTER", screams the *Daily Mail* in its recent report of the brutal sex crimes of a young black in London. This is by no means the first such case of perverted attacks by Blacks against White old age pensioners, but it is unusual for such an incident to receive major press coverage.

The fact that such a story can appear in a national newspaper may be seen by some people as an indication that the anti-British Race Laws have not done much damage to free speech. However, this view is wrong. Several National Front journalists have been jailed for much less outspoken articles of Immigrant crime. So why is the *Daily Mail* allowed to get away with stories which would get *N.F. News* prosecuted?

The reason lies in the different reasons we have for publishing such reports and in the different conclusions which the two papers draw from the same facts. The *Mail* has one over-riding reason for publishing material like this - in a basically racist society like Britain it sells extra papers. And extra papers mean bigger profits for the *Mail's* wealthy owners. So while the *Mail* disguises the article as an attack on mindless crime, it is really only selling racial hatred. The only thing that really matters to Capitalist press barons is money, and they'll do anything to get it.

SINISTER

But there is an even more sinister reason for the occasional appearance of race-related stories in the national press. They help to convince people that free speech is not yet dead. They give a hope that the Establishment may yet do something to end the multi-racial nightmare. And if the Establishment might do something about it, there's no need for "extremists" like the National Front is there? In a word, such stories act as a safety valve.

And if they happen to incite a bit of racial hatred against innocent Blacks, the Establishment isn't too bothered. The aim of our rulers is to ensure that inter-racial hostility is directed against ordinary people, rather than against the System which imposed the disastrous multi-racial experiment on us all in the first place.

SICKNESS

National Front News on the other hand, looks on racial crime such as this disgusting rape as merely the symptom of the sickness known as multi-racialism. Coloured resentment against our society and crimes against our people cannot be controlled by laws, riot police or even the Army. Such measures are only leading to a spiral of ever-worsening violence. The reality is that the horrors of multi-racialism can only be ended by ending the multi-racial society itself.

Fight Back For Britain...

...Join The National Front!

FOR further details of the National Front send 50p to: The Secretary, PO Box 41, Norwich, Norfolk, NR3 2AH.

NAME..... ADDRESS.....

So while the Establishment happily tolerates the racism of the safety valve *Daily Mail*, *N.F. News* is under constant threat of prosecution. The plain fact is that in Britain today you are still just about free to complain about the effects of Immigration, but if you actually start to organise to deal with the sickness, rather than merely the symptoms, you are immediately regarded as an enemy of the State.

What is happening to our country?

MONSTER

**He's 19. He raped
a 79-year-old lady
in her own home.
Two months later
he broke in and
did it again...**

THE words that sum up Nigel Carrington are among the hardest in the language.

They include: brutal, beast and monster. And there are stronger ones too.

Twice within two months 19-year-old Carrington raped a helpless 79-year-old woman, subjecting her to appalling attacks in the place she felt safest, her own home.

Repeating his attacks on a pensioner, Carrington is described as "outrageous, brutal, and inhuman".

Shattered

At the Old Bailey yesterday Judge Robert Lindsay QC handed a 15-year sentence to Carrington and told him: "There is a time in this country when we should be proud to be British."

It seems this is no longer a luxury the public can afford to give.

Each of the pensioners sexually attacked by Carrington were "shocked and humiliated", said the judge. "Both are left with shattered confidence for the future as far as the safety of their own homes is concerned."

Judge Lindsay sentenced Carrington to 15 years in custody, which means he will be held in a detention centre until he is 21 and then transferred to prison.

But that is too light a sentence, believes the woman he raped twice. "I think he should have been given life," she declared after the case.

Bizarre

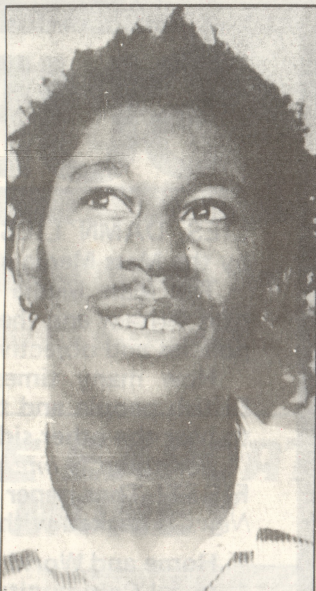

"No one will know how much he hurt me. It's not how you look on the outside. It's how you feel on the inside. I think this has ever happened to me before."

"Now I'm going home to carry on with all I can do."

Carrington, of Wymondham Road, Canterbury, South London, had a 10-year prison sentence, which served him to prison and rape elderly women. He was charged with the rape of a 79-year-old woman.

The first attack on the rape victim, under 18, unmarried and still a virgin, began in front of Carrington as she entered her house in South East London.

Carrington forced his way through the door, she fought back but was too weak for her powerful assailant. He raped her.

Nigel Carrington: A 15-year sentence

This is why the National Front demands the phased - financially assisted repatriation - of all Immigrants and their descendants to their lands of ethnic origin. Opinion polls show that the majority of the British people support this demand, but it is unacceptable to the Establishment because Immigration has led to cheaper and less well organised labour and is therefore vital to the bank balances of many factory owners and big companies - the very people who finance the main political parties.

of the National Front. We know what is needed to make Britain a decent country in which to live and raise a family - and the unjust laws of a profit-hungry ruling class will not stop our campaign to end the multi-racial nightmare.

More and more Britons are realising that it's time to start organising to do something about the disease. If you too are tired of reading about the horrors of this sick society, if you think that it's time to do something to put it right - your place is in the Front!

STOP THIS NUCLEAR MADNESS

AN arrow indicates the spot where the fire started at the Chernobyl nuclear power station.

OVER the last few years, the National Front has been in the forefront of the campaign against nuclear power.

We have always warned that nuclear energy is extremely dangerous. We furthermore stated that the chances of exposure to massive doses of radiation from leaky nuclear reactors posed an unacceptable health hazard to Europe.

Not only would the health of those people alive today be jeopardized by a peacetime catastrophe, but severe genetic damage would occur that would be passed down to future generations

of our peoples.

Our warnings have been completely vindicated in the wake of the tragic Chernobyl disaster in Russia.

As a result of the explosion and fire at Chernobyl, many people have died. Countless thousands may die in the future. Animals, food and drink have had to be destroyed. There is also talk of the immediate Chernobyl area being uninhabitable for the next 100 years.

That is why the National Front has repeatedly said: Stop This Nuclear Madness - NOW!

Independence For Ulster

ULSTER stands at the crossroads. Margaret Thatcher has signed the Anglo-Irish Agreement, which hands the Britons of Ulster over to a foreign State. By signing the Anglo-Irish Agreement, the traitors at Westminster have booted Ulster out of the UK.

So Ulster has to make a choice. Either Ulster is governed by direct rule from Westminster and Dublin - or she is governed by her own people. The first choice is not acceptable. The second choice means that Ulster would have to demand negotiated Independence.

If Ulster does demand Independence it will not be easy for her. But to survive, Ulster needs to be free from Westminster and Dublin.

An Independent Ulster will sever all corrupt - political ties with Britain. But its racial, spiritual, historical and cultural ties with Britain will remain forever.

An Independent Ulster - free from the British State - will have many problems to face: Sectarian Hatred, Bigotry, Violence, Unemployment, Bad Housing. And to cap it all, a Chinese immigrant problem.

To survive - and to solve all of its problems - an Independent Ulster will have to sweep away all of the old Establishment politicians. It needs to rid itself of those who have grown fat on promoting hatred and bigotry.

The National Front regards negotiated Independence as a Third Way - a position which will put Ulster beyond the religious divide. Then, and only then, can Protestant and Catholic unite to build a new Ulster.

The National Front says forward to a New Ulster.
NEGOTIATED INDEPENDENCE FOR ULSTER!

BLAME THE BOSSSES FOR THE BLACKS!

IMMIGRANTS were brought in to Britain to undercut the wages of British workers and to keep down pay in industries such as transport, the Health Service and the clothing trade.

When the Immigrants began coming in the late 1940's and 1950's there was never, as pro-immigrant apologists claim, "a labour shortage" in Britain. Indeed, there were never fewer than a quarter of a million Britons on the dole.

But in a number of industries, the Bosses - Capitalist and State - were faced with a choice. Either they pay British workers a fair rate for the job - or bring in Immigrants who were prepared to work for less money, and in worse conditions.

It's not true that Britons were work-shy. They wouldn't work in the sweatshop conditions that the Bosses hoped to get away with. And in those pre-Thatcher days of lower unemployment most Britons could find other jobs instead.

One result of mass Immigration was to undermine the Trade Union struggle for decent pay and conditions for British workers. It is because of Immigration that Nurses, for example, are so badly paid today.

The National Front says that this system of Capitalist Exploitation is all wrong. We demand that British workers are paid a fair wage for a fair days work - we don't need to bring in Immigrants to undercut British workers.

We demand that this exploitation should end immediately. And that all Immigrants should be repatriated back to their lands of origin.

EVERY month *National Front News* receives a sizeable postbag. In the past we have just read and taken note of your letters. However, we now feel that it is important that your views make the news. Therefore, from this issue, *NF News* will print a selection of readers letters.

Just send your letters to:
The Editor, *National Front News*, PO Box 41, Norwich, Norfolk, NR3 2AH.

NATIONALIST PRISONERS

Dear *National Front News*,

May I take this opportunity to thank all those individuals and NF units who have donated to the Nationalist Welfare Association.

As you may be aware, the National Front has many members behind bars - simply for defending our Race and Nation. Others have been heavily fined for opposing the enemies of Britain, like those arrested during the NF's anti-IRA demo, earlier this year.

Where our members are jailed, the NWA provides financial help for their families. Where NF members are fined, we help pay part of their fine.

However, the amount of financial help the NWA can afford to give obviously depends of how much the NWA has itself. Therefore, if Patriots can afford to send the NWA a donation, please send them to: The Treasurer, NWA, Norwich, Norfolk, NR3 2AH. (Please make out all Cheques/P.O.'s to "NWA"). All donations - large or small - are gratefully appreciated. All donations will be acknowledged.

Yours,
John Field,
Treasurer, NWA.

WHITE PRIDE.

Dear *National Front News*,

The slogan 'White Pride, White Unity, White Power' accurately sums up the National Front's racial message.

White Pride is essential. We need

**ALBERT
MARINER
R.I.P**

ALBERT MARINER (3rd Anniversary.) Killed in May 1983, whilst fighting for his Race and Nation. Fondly remembered by the Editor and Editorial Staff, *National Front News*, Editor and Editorial Staff, *New Dawn*, Editor and Editorial Staff, *Nationalism Today*; Editor and Editorial Staff, *New Nation*; Executive Council, National Front; National Directorate, National Front; all Regions, Branches and Groups, National Front.

*No fear shall mar the hero's light,
Nor taint a soul, that proud and free
Makes sacrifice, and finds its rest
In this undimmed eternity.*
-Paul Comben.

to rediscover our racial roots. We need to be proud of the fact that our race has sailed the seas, opened up the land and reached to the stars. Our forefathers have been responsible for some of the world's finest paintings, music, architecture and inventions.

Once we regain our White Pride, we must have White Unity. For too long now, the bosses have set one White Nation against another. This must stop! Never again must White Man fight White Man.

And once we have White Pride and White Unity we will have White Power! White Power simply means that Britain will be run by the British people for the British People. However, our emphasis on White Power doesn't mean racial hatred. Indeed, I see mutual cultural respect - and the phased repatriation of Immigrants - as the only way to avoid Race War!

Roger Jenkins,
East London.

YANKS GO HOME!

Dear *National Front News*,

Does Britain have to get involved in other people's wars? The answer apparently is Yes. The USA's attacks on Libya bring the problem into focus. Any reprisals that Libya chooses to make could be directed at US bases in Britain.

Additionally, what happens when America picks on somebody more powerful and closer to home? We have no say in who and what uses US bases in Britain. And we have no say in what the US troops do. Therefore, the US bases must be closed down and their troops sent back to the States.

CND's solution - of lying down and waiting for trouble - is no solution at all. What happens when the Mad Dog in the White House takes a dislike to Britain?

Yours for Europe,
Dave Shedden,
Suffolk.

On The Election Front...

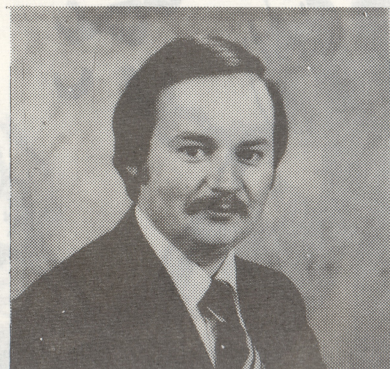

Best Results For Years!

RECENT local Council elections produced some of the best results the NF has obtained since the 1970's.

Roger Evans, Chairman of Tower Hamlets NF, received over 10% in St. Dunstons ward - beating the two Tory candidates! The vote is even more impressive, considering that 20-30% of the ward is Coloured.

NF Deputy Chairman, Graham Williamson, obtained over 6% in the Elm Park Ward in the London Borough of Havering. Graham also managed to beat a Residents' Association and Ecology Party candidate.

Dagenham NF stalwart, Steve Woodward, and Gina Pearce - wife of Joe Pearce - received over 5% of the poll in Goresbrook ward. In 1981, the unit obtained 1.5%, and the increase is even more remarkable when one considers that the unit was only reformed a few months ago.

JOHN WRIGHT. INCREASED THE NF VOTE IN LAMBETH TO OVER 4%.

STEVE WOODWARD

In Lambeth, well-known Committee member, John Wright, and NF activist Mick Connelly once again increased the vote, with over 4% of the vote.

Croydon (3%+) and Birmingham (2.83%) obtained in their target wards, their "best results for years". Recently formed Epping NF gained a respectable 3.16% in Debden. Also, Newcastle NF Organiser Colin Todd, fighting their first ever local council seat, obtained 2.5%.

One significant fact was the favourable difference in votes between target wards and non-target wards. Also, those units that followed the target ward strategy generally achieved good results.

Although the results were modest, the votes show that we are heading in the right direction. It is up to all units to step up their door-to-door selling - and the production of local Patriots - so that next time we can obtain a real electoral breakthrough.

Albert Remembered

THIS YEAR marked the third anniversary of the murder of Tower Hamlets NF member - and OAP - Albert Mariner. Albert was killed by black rioters outside a legal NF election meeting in Tottenham, North London.

To mark his tragic death, the National Front staged a torchlit march through Central London.

Over 250 NF members marched, and a rally was later held in the City of London to honour his memory.

The rally itself was addressed by Vic Clarke, Organiser of Tower Hamlets NF, Phil Andrews of Hounslow NF, and Nick Griffin (former Deputy Chairman - now Chairman of the National Front). All the speakers paid tribute to Albert's courage, dedication and sacrifice.

St. George's Day Success

OVER 400 people attended the National Front's first indoor pageant held to mark St. George's Day - England's National Day.

During the day various stalls did a brisk trade. The recital of the Anglo-Saxon poem, *The Battle Of Maldon* - was enthusiastically received - as was combat re-enactments by a group of Viking and Saxon enthusiasts.

A short political rally was addressed by Nick Griffin, Phil Andrews, John Hill (Birmingham NF), Colin Todd (Newcastle NF), John Wright (Lambeth NF) and Michael Fishwick (Norwich NF).

During the evening, over 250 people attended a *Return of St. George* gig, held in the same hall as the earlier pageant.

First on stage were Newcastle's *Skullhead* fronted by Kevin Turner. They received a great cheer for their track *Hang the IRA* - arguably the best anti-IRA song around.

Next came Public Enemy from Kent who got the crowd going even more. Brutal Attack rounded off the night in fine style, and confirmed their position as one of Britain's top Nationalist bands.

VICTORY

To The
Print Workers!

ARROGANCE is one Australian print owner Rupert Murdoch's obvious characteristics. To announce to 6,000 employees "I'm moving my business down the road and you aren't needed any more" is typical of a money-crazed big businessman. Some of his printers had worked for over 50 years for the same firm - only to be replaced by people with a non-printing background. 'Tough!' is all the Tories can say.

The printers are probably the best paid of all manual workers. And they have enjoyed many privileges in the past. But this is due to union muscle and the nature of the newspaper business. They have also printed outrageous lies about the National Front, without the slightest hint of complaint.

PRINCIPLES

However, the principles involved in their strike demand that the NF takes a much more reasonable approach to them than they have to us.

British workers' jobs should not be at the mercy of cynical materialists like Murdoch, Maxwell, or Shah. Our first priority must be to stop all foreigners owning British newspapers. They should never be allowed to control the destinies of their employees. And they must never have the chance to influence the opinions of our folk.

The printers must win. They must be given their jobs back. But the NF urges them to radicalise their demands.

REINSTATED

Not only should they be re-instated, but also the papers must be run as workers co-operatives.

SOGAT NGA AUEW NUJ

NEWS INTERNATIONAL

DISPUTE

SATURDAY DEMONSTRATIONS

EACH SATURDAY EVENING THERE WILL BE A MAJOR DEMONSTRATION AT WAPPING IN SUPPORT OF THE PRINTWORKERS DISMISSED BY RUPERT MURDOCH.

ALL TRADE UNIONISTS AND SUPPORTERS ARE ASKED TO GIVE MAXIMUM SUPPORT.

MARCHES BEGIN AT 8-30 PM AT TOWER HILL

PLEASE BE THERE EVERY WEEK

The printers must have a stake in their work - in financial as well as administrative terms. The profits should go to the workers - not to the Stock Exchange, foreign banks or Bosses.

The Communists are trying to muscle in on British workers' grievances. Thankfully, the printers are proud of their country. *The Guardian* reported one of the all-

White, all-male, pickets shouting after the arrest of a colleague: "He's an English Working Man. You should be nicking f***ing Niggers in Brixton!"

The printers are British Workers, family men and proud of their trade and country. They only want their jobs back. We must support them. **VICTORY TO THE PRINTERS!**

Forward For Europe

SINCE the last war, Europe has become a frightened nonentity when it comes to World power politics. The only ones to profit from the war were the Capitalists, Communists and Zionists. Israel, despite being a small country, wields an amazing amount of power. This is due to Zionists having very prominent positions in most Western Governments. This is reflected in the totally one-sided policies adopted in the Middle-East conflict. When Israel shouts, the West jumps.

Zionism attempts to crush any Nationalistic feeling in the West. This aids the Communists who turn their attention to undermining the so-called forces of 'law and order'. As law and order collapses in the face of race riots, the Capitalists, frightened of being called 'racist' claim that Nationalists are to blame for the troubles.

NATIONALISTS

They then clampdown on all Nationalists. This aids both the Communists and Zionists. In fact, any action by one of these three evils (Capitalism, Communism or Zionism) always aids the other two in one way or another. The only enemy of these three is Nationalism. Nationalists therefore suffer for their actions.

Europeans have inside them a fierce Patriotism and National pride. It is up to us - as the flag bearers of Racial Nationalism - to awaken this feeling. It is up to us to lead the struggle against those who try to destroy Europe's freedom. Co-operation between European Nationalists is essential in our life and death struggle against our enemies.

IN the last issue of *National Front News*, Ian Stuart, the jailed lead singer of the Nationalist rock band *Skrewdriver* set out the NF's alternative to the common market. Our idea - known as a "Europe of the Peoples" -

combines the idea of some form of European Unity with respect for individual National Sovereignty.

In this article, Ian further explains the importance of a Europe of the Peoples.

THE CELTIC CROSS. SYMBOL OF EUROPEAN NATIONALISM.

In the future I see European people standing together as one. With the flags of European strength before us. I see Europe as a World Power once again, repelling the drug-sodden, multi-racial Capitalist

'culture', and standing against Communism. I see a Europe of purity, of strength and of pride.

Alone we are weak. Together we are strong. Forward for a Europe of the Peoples!

WORKERS CO-OPS - THE FUTURE

IN a future Nationalist Britain, Workers Co-Operatives would fill the gaping hole that currently exists in Britain's economic structure.

Those companies that have gone beyond the ownership of the original entrepreneur and are in the hands of faceless shareholders - with no real knowledge or interest in how the company is best run - would be handed over to its workforce.

Businesses such as supermarkets and department stores would be broken up and the sections sold off to small

traders.

Nationalisation would only occur in those industries where it is in the clear national interest to have them. State Ownership - such as Banking, Telecommunications, Transport, etc.

In a Workers Co-Op, the whole workforce owns and controls the enterprise. Therefore, the 'traditional' conflict between management and workers is removed. Additionally, the motivation provided by private ownership is extended to the whole workforce.

Workers Co-Ops Work

IN THE ancient Basque Nation in northern Spain, one in five of the working population is unemployed. Yet at the area's heart is a network of factories where business is booming. No workers have been permanently laid off and new jobs are being created. This is Mondragon where all the factories are owned and run by the people who work in them.

Mondragon is rapidly becoming one of the world's best-known and most admired worker co-operatives. Starting 27 years ago, it now includes 164 enterprises with almost 19,000 worker-members. Ninety industrial plants turn out everything from heavy machine tools to bicycles, and there are also eight food and agricultural co-operatives.

MIRACLE

Even in these economically depressed times, annual sales for the entire Mondragon group have more than doubled to over £500 million. The greatest miracle of all is that it is in a region with one of the highest jobless rates in Spain and yet has managed to actually expand employment.

Besides industrial and agricultural co-operatives, the group includes primary and technical schools, sports and housing associations, an industrial research institute and an independent social-security system. There are also 80 co-operative stores selling a wide range of goods to 120,000 members.

The Mondragon achievement is truly remarkable. The people are working both for themselves and for the common good - and they

specialists and technical engineers, a proportion split their days between the classroom and practical on-the-job-training. More than half the students join nearby co-operatives after they graduate.

at least 60% of final salary as a pension to be added to the state benefits.

SUCCESS

All in all, the co-operative

A view of the Mondragon central complex showing (top centre) the Co-Op Bank; (centre) Research and Development Institute; (bottom left) Technical College and (bottom right) Housing Co-Operative.

are managing to be economically very successful at the same time.

And due to the tremendous success of these workers co-ops, Mondragon is now a bustling town which serves as the centre of the co-operative group's support services.

Mondragon features its own polytechnic. Its 1,200 students study for degrees as craftsmen,

On a hillside just above the school, a modern research centre staffed by 60 engineers provides the industrial co-operatives with the latest technology. Nearby is the headquarters of the group's own social security, which operates alongside the state scheme and provides extra family allowances, medical services and sickness and widow's benefits, as well as paying

movement at Mondragon is about the best industrial success story in the world. Its success is important for the National Front as well. For it proves that our ideas on industrial ownership do actually work in practice - in stark contrast to the repression and unemployment common in Capitalist and Communist countries.

Where Owners Work And Workers Own

MONDRAGON is about the best industrial success story in the world today. But who started Mondragon? How do its workers co-operatives work? And why is Mondragon so successful?

It all started in 1941, two years after the end of the Spanish Civil War, when Jose Maria Arizmendiarieta, a 26 year-old newly ordained priest, arrived in the small town of Mondragon, some 25 miles south-east of Bilbao.

ACHIEVEMENT

One of Don Jose Maria's first achievements was the founding of a trade school. Up until his arrival the only technical school in the area was run by a major metalworking plant which only admitted sons of employees. In 1943, Don Jose Maria's trade school opened its doors to all. Once

fully qualified, its students soon found jobs.

Twelve years later, in October 1955, with the priest's moral support, five trained men from his school opened a small workshop they called Talleres Ulgor, and began making oil stoves. Each man contributed £500 from his savings to get production off the ground, and became an owner as well as a worker. In April 1959 Ulgor was officially registered as a co-operative.

Today, Ulgor has 2,500 worker-members and is one of the biggest industrial co-operatives in Western Europe and one of Spain's major manufacturers of refrigerators, washing machines and cookers. constitution, a model for the Contract of Association that would later be used for the entire co-operative group. Based on the principle of one man, one vote, the constitution also provided that the

highest pay be no more than three times the lowest, which was pegged at the average of comparable firms in private industry.

ELECT

Workers in the co-operatives modelled on Ulgor now elect their boards of directors for four-year terms. Each board is a cross-section of company personnel from top to bottom. They in turn elect the chief executive and monitor and question his decisions.

Decisions on safety, pay scales and social welfare are monitored by the social council, composed of one elected representative for every 15 or 20 workers. An elected council of auditors scrutinises company books on behalf of all personnel.

In all the co-operatives, workers are members, not employees, and

pay a contribution to join the firm - currently around £3,000. Instead of a salary, they receive a monthly advance on future shares in profits. In addition, a maximum of 70% of the firm's profits is divided among them and placed in holding accounts to which fixed interest is added annually, and which they withdraw when they leave. Of the remaining 30%, a minimum of 20% goes into a collective reserve fund, and 10% subsidises civic and social co-operatives associated with the movement.

LIVING EXAMPLE

So there we have it. Mondragon provides a living example of NF policy working. Mondragon also provides a living example of the ideal: Where Owners Work And Workers Own.

Set Up A Worker

MILLIONS of Britons are wasting their lives away on the dole. Millions more are stuck in boring, dead-end jobs, working for somebody else. All are victims of a Tory Britain that just doesn't care.

Unlike the Tories or the Communists - who just use the unemployed people as cannon fodder - the National Front has the policies to get Britain back to work.

However, we have to face facts. The NF's ultimate victory has still to come. But, in the meantime, Britons can use the existing System to set up their own Workers Co-Operatives.

EFFECTIVE

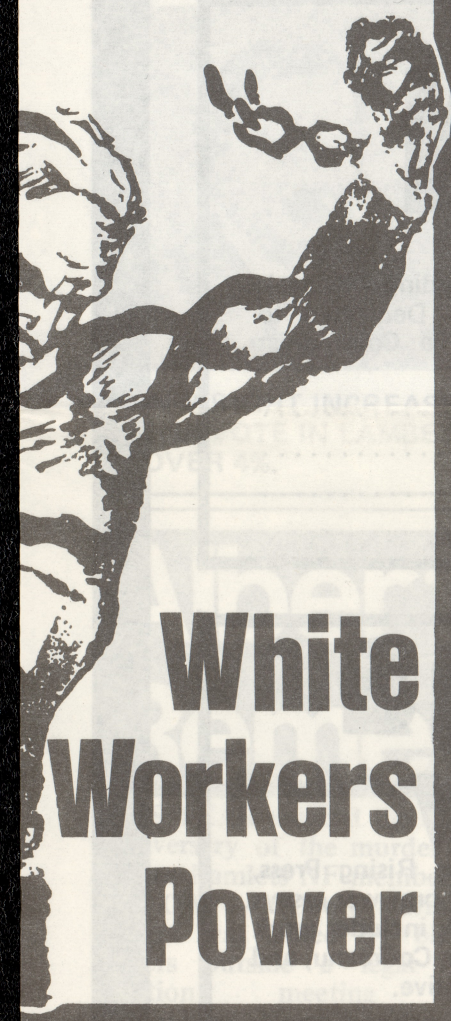

Just how effective Co-Operatives can be is judged from the fact that while there were only 20 of them in the whole of the U.K. in 1975, there are now over 1,000. These employ over 10,000 people and a new one is set up each working day.

FUTURE CALLS...

There would be no need to strike. This is because the workforce itself has the final say in the running of the company. Because people who work in Co-Ops work for themselves, they see more clearly that what is best for business is best for themselves.

Workers Co-Operatives combine the ideal of private ownership with the ideal that workers should have more say in the running of industry.

Fight For

Workers Co-Op

A Co-Op is a business in which control and ownership rests with the workforce. Control is democratic, with each member having one vote. Any profits belong to the members - after providing adequate reserves for the development of the business, the balance is distributed to members in a fair and agreed way.

PROSPER

Like any business, a Co-Op will only survive and prosper if it gets hard work from all its members, and provides a product or service that is really needed at the quality and price offered.

For further information on how to set up your own Workers Co-Operative, write to:

The Industrial Common Ownership Movement, 7-8 The Corn Exchange Leeds, LS1 7BP.

or,

Co-Op Development Agency, 21 Panton Street, London, SW1Y 4DR.

Neither Capitalism - Nor Communism

BOTH Capitalism and Communism are based on an economy where a handful of wealthy and powerful bosses own or control the means of production and distribution such as factories, farms and shops.

Under both systems, most ordinary people have no stake in their workplace. Strikes, low productivity and discontent are the inevitable result of this damaging division between capital and labour.

The National Front in complete contrast, calls for something radically different. Our aim is to spread the ownership of the means of production and distribution to as many British people as possible.

MARXIST WAY

We do not aim to do this in the Marxist way by saying that "everything now belongs to the working class", when in fact what they mean is that everything is controlled by Party bureaucrats. Such a 'revolution' would change nothing except the bosses we have to obey. Instead, we will give direct ownership to the individual worker.

The Nationalist economy will be based on three main areas: self-employed individuals, small family-run firms and Workers Co-Operatives.

With an end to unnecessary official red tape and unfair competition from giant rivals there will be a massive increase in the number of self-employed individuals.

Many of these businesses will turn into family concerns, which will make for continuity and a tradition of craftsmanship and good service. The break up of giant "agri-business" estates and the expropriation of large-scale absentee land-owners will lead to a rapid revival of family farms and small-holdings.

PERMISSIBLE

It will be permissible for family concerns to employ small numbers of well protected, non-owning, workers, but beyond that level must be converted into workers' co-operatives. Such co-ops will be the standard operation in much of the wholesale trade and in productive industry.

There are some areas where none of these systems of ownership may be suitable, for example, capital intensive high technology or heavy industry which cannot be broken up into smaller units. These will be run as nationalised concerns, with profit sharing and worker representation.

AVOIDED

Such State ownership will, however, be avoided wherever possible. For the general rule shall be that no-one will work for another when he is willing to work for himself. By working for themselves, our people will work for Britain.

The Alternative To The Dole...

Workers Co-Operatives offer the only viable alternative to a lifetime on the dole.

FED UP... NO JOB?

IT'S NO GOOD just moaning about unemployment and doing nothing about it: Unemployment won't go away until we have smashed the Capitalist System which creates it in the first place. And whilst the British people are divided, Thatcher doesn't have to do a thing.

In short, whilst the System can keep the masses happy, Thatcher knows she can sit back. But once the British people wake up and unite, then they will demand Revolution

Revolution

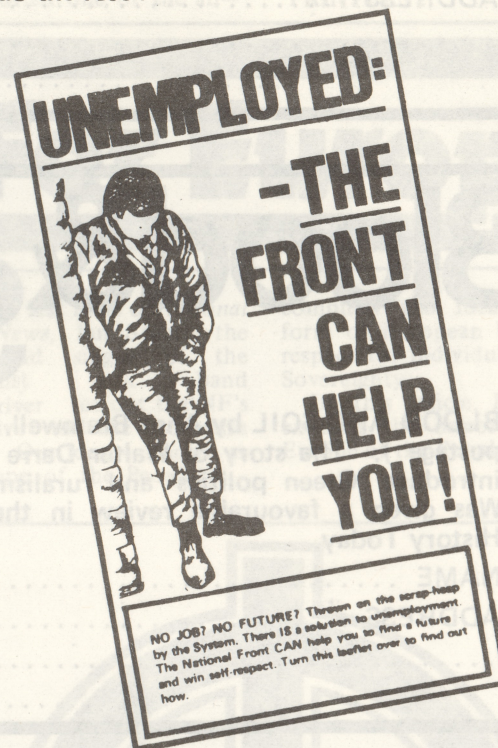

But the time is not yet right for Revolution. As we stated earlier, the System is still capable of providing 'bread and circuses' to keep our people 'happy'. But as time goes on - and as cracks begin to appear - then the masses will demand change. So we are in a pre-revolutionary situation. We must therefore use our time to recruit an elite Revolutionary hard core who will continually agitate for change. And the only way we can recruit the Revolutionaries of tomorrow is to distribute our radical NF propaganda today.

Unemployment

To this end, the National Front has produced a special leaflet dealing with the problem of unemployment.

The leaflet is printed in dynamic Red White and Black. It has already proved to be a very popular item.

Branches, groups and individuals should rush their orders in today. Just fill in the handy coupon printed below, and we will do the rest!

Fight Back For Britain!

I'M FED UP with the dole queues. I want to smash the Capitalist System that creates unemployment. I want the National Front to fight for full employment and social justice for the British people.

So, please rush me.....thousand leaflets (cost £5 per thousand plus £2 postage).

NAME.....

ADDRESS.....

I also enclose a donation of £ . p to help the National Front Fight Back For Britain!

Please make all cheques / P.O.'s payable to 'Nationalist Books' and send to: Nationalist Books, 50 Pawsons Road, Croydon, Surrey, CR0 2QF.

NATIONALIST BOOKS

50 PAWSONS RD, CROYDON,
SURREY, CRO 2QF.
TEL 01-684-0271

Animal Farm

ANIMAL FARM by George Orwell. (£1.95 including postage). George Orwell's classic criticism of Capitalist and Communist totalitarian State oppression. A must for all freedom lovers.

NAME
ADDRESS

The Lord Of The Rings

THE LORD OF THE RINGS by J.R.R. Tolkien. (£8.95 including postage). Tolkien's most famous heroic tale. A source of tremendous inspiration for activists in the National Revolutionary struggle.

NAME
ADDRESS

Blood & Soil

BLOOD AND SOIL by Anna Bramwell. (£13.95 including postage). The story of Walter Darre and his struggle to introduce 'Green politics' and ruralism into the NSDAP. Was given a favourable review in the scholarly journal, History Today.

NAME
ADDRESS

The Impact Of 'Holocaust' Revisionism

THE IMPACT OF 'HOLOCAUST' REVISIONISM by the Institute for Historical Review. (£1.00 including postage). A short but fascinating history of the struggle of Revisionist historians to bring the truth of the 'Holocaust' legend to the general public. Zionists and reactionaries really loath this booklet!

NAME
ADDRESS

Rural Rides

RURAL RIDES by William Cobbett. (£3.90 including postage). William Cobbett, journalist and patriot, was a fervent opponent of Capitalism and its quest to destroy rural England. All patriots should read this hard-hitting account.

NAME
ADDRESS

INVASION

INVASION by Skrewdriver. (£1.80 including postage). Skrewdriver's latest — and best — single. Dedicated to Nationalist freedom fighters who oppose a Communist invasion.

HOW TO ORDER

- ★ Fill in your name and address under the item you require.
- ★ Cut out advert and send it, together with a P.O. or cheque, to Nationalist Books.
- ★ Make your cheque payable to Nationalist Books — Add 25% for overseas orders

The Spirit Of The People.....

IN THESE troubled times, a day rarely goes by without some section of British industry shutting down. These shut downs have - in some cases - destroyed whole communities, and ruined thousands of peoples lives. The majority of the stricken firms and businesses have been in the industrial areas of the North East, and in other areas such as Yorkshire and Lancashire.

DEATH BLOW

Many observers have predicted that as the Tories have dealt the final death blow to the people of these areas, they would automatically support the anti-British lunatics running the Labour Party. To the peoples credit, they have not let the phoney phoney 'workers' fool them for one minute.

Most of these communities have

NF - FIGHTING FOR THE PEOPLE

an inbred sense of patriotism. They realise that all the major political parties are not in politics to improve the lot of the British Worker - but only to feather their own little nests.

It is with alarm that the alien media in Britain has noted that support for the radical Nationalist policies of the National Front is on the increase. In the North-East, for instance, Newcastle NF is doing excellent work in spreading the Nationalist message. In the North-

West, Manchester, Blackpool and other units are doing sterling work - and membership is increasing daily. In Yorkshire (as issue 38 of our sister-magazine *Nationalism Today* indicated) things are going superbly.

All in all, the media and establishment politicians are beginning to realise that they can take our jobs, ruin our communities, jail our people for opposing them, but they'll never destroy the spirit of the people!

Keep The Mines Open

TIN MINES HAVE existed in Cornwall since neolithic while Bronze Age Man used tin in alloys with copper. Yet, this, perhaps the most ancient of Britain's industries, is now faced with extinction because of an 'international tin crisis'.

In any sane world, a country such as Britain would protect an industry which employs several thousand people and which mines a vitally important raw material such as tin. Yet the British Government has said that until 'the international market for tin has stabilised' no help will be forthcoming and the industry can die.

WILD

Some countries didn't like this idea, so they set up an International Tin Council to regulate the wild fluctuations in price which are an integral feature of any free market. When recently more tin was being produced worldwide than industries needed, the Tin Council attempted to holdup the price of tin by buying large quantities at an artificial price. It ended up buying more than it could afford and has now gone bankrupt with debts of £900 million. The price of tin has dropped from the artificial 'regulated' price of £8,140 per ton to under £6,000 per ton. Cornish tin costs between £7,000 and £8,000 per ton to produce, which obviously means the Cornish mines are also likely to go bankrupt.

IRONIC

The reason for the international tin crisis is ironic. Mrs. Thatcher believes in a free market where goods and commodities such as tin are bought and sold all round the world for whatever the financial brokers are prepared to pay. This means that if Indonesia can produce tin more cheaply than our own Cornish miners, then that's tough for our Cornish miners, because British tin consumers will buy from Indonesia.

STRAIGHTFORWARD

The lesson is straightforward. You can either have a Thatcher-type free market where goods, commodities and people's jobs are bought and sold by international bankers or you can have a nationalist system where the first priority is the well being of the people.

In a Nationalist Britain, we would ban imports of foreign tin, and invest in the future of Cornish mines. This would save thousands of jobs and whole communities from extinction.

SOUTH WALES NUM MEMBERS DURING THE YEAR LONG MINERS STRIKE. FOR CORNWALL THE MESSAGE IS THE SAME: 'NO PIT CLOSURES'.

STOP THE EXPORT OF MONEY

WHILST British Industry has been starved of funds and factories have been closing down, so-called 'British' financial and industrial institutions have been freely investing their money abroad, especially in the Third World and Eastern Europe.

So, at a time when the industrial base of Britain is crumbling away, why is this much needed capital being invested abroad? The answer is to appease the Capitalist god of profit.

Capitalist institutions find it much more profitable to invest in those countries where the wage rate is very low, the work hours long and the workers are kept in their place, normally at the point of a gun, where safety and pollution controls are inoperative. In other words, the ideal Capitalist State.

CAPITALISTS

'British' capitalists say that all of this is good for us. Well it might be good for them and their allies on the Stock Exchange and in the old political parties—but precious little comes the way of British

WE SAY : SPEND MONEY IN BRITAIN - NOT OVERSEAS !

workers whose jobs have been destroyed by lack of investment at home.

To make matters worse, these cheap slave - labour countries export to us products made in the factories that British capital has financed - putting even more British workers on the dole!

The National Front says that this madness must come to an end. We say Re-establish exchange controls to stop the flood of investment overseas. British money must be spent on industry here, not overseas !

COMMUNITY ACTION

COMMUNITY ACTION is a new addition to *National Front News*. Hopefully - and with your support - it will become a regular and major feature of the paper.

Community Action seeks to help the National Front sink local community roots. Indeed, we see this as a very small step on the road to establishing a whole series of Nationalist Advice Centres throughout the UK.

We want to expose local council corruption and incompetence; fight closures of local hospitals, factories and schools, and campaign for decent housing and social services for our people. We also hope to carry advice on what you are entitled to in the way of supplementary benefit, health benefit, housing benefit, etc.

If any NF member or supporter thinks that Community Action should focus on their area, then simply send us your community news plus any local press-cuttings. Members of the public who want us to take up campaigns on their behalf, should use the special coupon, printed below. (Please include a stamped, self-addressed envelope, for administrative purposes).

Something To Brag About

THE Baylis Road Action Group (BRAG) is something of a Community Action success story.

Formed in October 1985, BRAG represented a genuine gathering of local tenants from the Waterloo area of Lambeth, in South London. These tenants felt that the Red-dominated Tenants Associations in the area were doing nothing for the Waterloo community.

However BRAG was also born out of frustration. Many local people thought that they were being denied a say in the running of established Tenants Associations. The last straw came when one local resident and NF member - Tony Hilton - asked to attend a TA meeting. His request was refused point blank.

From the start BRAG was totally independent from the National Front. But this didn't stop the Communist-dominated Association of Waterloo groups (AWG) and Labour controlled Lambeth Council from ganging up on BRAG.

Thousands of smear leaflets have been distributed by the Association of Waterloo Groups. Additionally, the Waterloo area's local paper - *SE1* - has carried several smear stories on BRAG. One front page article claimed that BRAG leaflets incited racial hatred and that BRAG was just a cover for the National Front. To cap it all, Labour MP

Stuart Holland, wrote a smear story against BRAG.

But the Reds have not stopped at just smearing the Baylis Road Action Group. Tony Hilton's 18 year-old wife has received threatening phone calls - saying that if Tony didn't resign from the NF he would be stabbed. The Reds from the Association of Waterloo Groups have even gone as far as smashing up their own property and blaming the NF and BRAG for it!

Undeterred by all this, BRAG have been issuing leaflets dealing with matters of local concern. So far they have come out in support of local traders in their opposition to Lambeth Council and Big Business plans to build a giant supermarket on the Lower Marsh site.

The Baylis Road Action Group has also concentrated on housing and they have also been in the forefront of the fight against crime, muggings and vandalism in the Waterloo area.

Despite the lies, smears and threats of violence, the Baylis Road Action Group - under the Chairmanship of Tony Hilton - has gained in influence, respect and membership. Indeed, BRAG provides the best example to date of how ordinary NF members and supporters can provide united and determined community action to defend their local communities!

Send Us Your News

* DO you want us to promote your local community group or tenants association? If so, just send your news to Community Action, P.O. Box 41, Norwich, Norfolk, NR3 2AH.

ISSUE 77

ULSTER: TELL THE POLITICIANS— 'NO SELL OUT!'

THE biggest danger facing the Loyalist cause is the threat of a sell-out by our established leadership.

Most battles are lost not because the troops break and run, but because the commander of one side or the other loses his nerve and decides it is time to flee the field. This danger is made worse because the commander and high ranking officers can usually rely on a safe getaway and a comfortable retirement, while the ordinary soldiers are left to die fighting a hopeless rearguard action.

Ulster's struggle against Hillsborough is still a long way from its fiercest, but already we have seen warning signs of weakness at the top.

MURDER

In the days after Portadown and the murder of Keith White, the weakness of our political leaders was shown up all too clearly. Instead of launching a campaign against the brutal and provocative policing of Barry's Boys, they allowed themselves to be bullied by the press and Tom King into condemning the "violence" against the RUC traitors. But we all know that many loyalist leaders talk tough one day — then condemn those who have been roused to action by their words the next.

BETRAYAL

There have been many warning signs of Betrayal. The attempt to calm things down by holding 'talks about talks' or asking for the Agreement to be 'suspended' are blatant ones. The only way to calm Ulster down now is to SCRAP THE ANGLO-IRISH DEAL. This simple demand must not be open for debate or compromise.

Other signs of potential sell-out come from those politicians who say that Thatcher might back down, or those who encourage violence against Catholics. Both these angles distract Loyalist attention away from the fact that it is Westminster treason which is our real enemy — and divert our energy away from the urgent task of organising ourselves to take on and defeat Thatcher.

INTEGRATION

Now that Thatcher has slammed the door on integration within the U.K. (and shown her determination to "settle the Irish question once and for all") Ulster has only one choice left to make: Dublin Rule or Independence. It's time to stop pretending that we have any other alternative.

Faced with this choice, it is inevitable that Ulster will do whatever is necessary to get Independence. And it is inevitable that our established politicians will not accept this.

There are two main reasons for this. Firstly, they represent the ruling class and the owners of our economy. But an Independent

The respectable politicians — in their heart of hearts — are also still loyal to the British State and to its institutions and laws. And they are unlikely to find the will and the resolve to make the clean break which is now the only thing that can save Ulster.

Will They Sell Out?

IAN PAISLEY & JIM MOLYNEAUX. They have already shown signs of backing down — what will they do when the crunch comes?

Ulster can only survive if she is run on community benefit lines, with co-operatives and family businesses operating in an economy run for the benefit of all our people rather than in the interests of a handful of bosses and multi-national companies. In the run-up to Independence there is no doubt that the powerful Irish lobby in America will pressurise US multi-nationals to withdraw from Ulster. This threat will only be defeated if workers and managers are organised to seize and occupy factories threatened with closure, and to run them for the benefit of Ulster instead of foreign speculators.

TERRIFY

But while such a move would bring great benefits to ordinary workers who would become owner-workers in their own co-operatives, it would terrify our fur-coat brigade, who would see it as a threat to their own economic and social power.

HEALTHY CONTRAST

In healthy contrast, the Ulster Clubs are committed to maintaining the union with the British State only "for as long as it benefits the people of Ulster". Many influential figures in the paramilitaries take the same realistic line. The National Front's is even more clear-cut: we are British Nationalists — loyal to the idea of an Independent and economically just British Nation. We are therefore utterly opposed to the present British State, which has reduced our country to a bankrupt and socially divided satellite of America. In order to preserve the British Nation (of which Ulster will remain part for all time) we are committed to the overthrow of the British State.

Any leaders who do not have this attitude will sell-out Ulster. In fact, the problem has already shown itself in the lack of strong leadership in a positive campaign of mass action to gain control of our

own affairs. The "Ulster Says No" campaign made its point very clear, but since Westminster chose to ignore the electoral and constitutional message, Ulster must now go much further. Withdrawal from local government and a half-hearted rates strike is just not good enough. Is such "action" really going to reduce the Iron Lady to a quivering mass of frightened jelly?

FUTILE

With such feeble political leadership it is no wonder that futile sectarian violence and talk of a self-destructive General Strike are on the increase. This situation offers a bleak prospect for the future. The economy of an Independent Ulster will be fragile in the first few years under the best of circumstances. If half of Belfast lies in ruins, the whole thing will be still-born. Smashing shops is no substitute for smashing Thatcher's tyranny. And rampant sectarian violence would give Reagan the opportunity to step in and crush the new Ulster State. Above all does anyone really want to live in a European version of Beirut?

WRECK

As for a prolonged protest strike, the main result would be to wreck the economy and increase still further our dependence on handouts from London or Washington. But none of this need happen. Betrayal by tired politicians is not inevitable. The people of Ulster can still take control of their own destiny — and win! All we need is the courage to make and achieve a few basic demands:

*NO SECRET NEGOTIATIONS.

The Agreement must be scrapped. If Thatcher wants to discuss what is to replace it, she must come to Ulster in a televised discussion with an Ulster People's Council, made up of democratically elected delegates from every interested organisation and from each parliamentary constituency in Ulster. Tell the Politicians: No More Secret Talks.

*INDEPENDENT LOCAL COUNCILS NOW.

It is not enough for Loyalists to withdraw from local government. The only real result of this is to strengthen the hold of the Westminster dictatorship over our

everyday lives. Instead, we must strive to bring an ever-increasing amount of local work directly under the control of our own democratically elected councils.

NEGATIVE

Instead of purely negative withdrawals and rates strikes, the time has come to hold our own council elections, form our own local government structures and strike a loyalist rate. The money must then be used to pay for essential services at present controlled by Westminster, while Thatcher's local government bureaucrats would be boycotted. This would put Thatcher in an impossible position. Either she would have to accept, thus giving Ulster folk a great deal of genuine freedom and power: or she would have to use force to try to prevent democratically elected councils from running basic health and education services. We must show that Loyalists are capable of positive and constructive action and that it is Thatcher who is the disruptive wreck. Tell the Politicians: Don't Give Away Power — Seize It for Ulster.

*PREPARE THE ALTERNATIVE ECONOMY

Ulster can only survive economically if the workforce take over industrial enterprises, particularly those linked to foreign multi-nationals or the British State. Shop floor workers and middle management must prepare for this now. Any attempt to close factories or move out stock or plant must be met with determined action to occupy and take control on a co-operative basis.

ORGANISE

If we do not organise this now, an Independent Ulster will not stand a chance. This means taking control of our trade unions. The apathy of many decent loyalists has left many unions in the hands of time-serving bureaucrats or Communists. In order to plug this dangerous breach in Ulster's defences, every loyalist trade unionist must attend every union meeting from now on. We must take control of our unions today, so that we can take control of Ulster's economy tomorrow.

Tell the Politicians: Constitutional protest is Not Enough. Political Power Must Be Based On Economic Power.
